

# JH Joist Hanger

## Overview

The Joist Hanger is a stainless steel support that enables the installation of aluminium joists onto an existing steel-framed balcony, ideal for replacing timber joists. aluminium joists are hung between the steels, enabling the top of the joist to be flush with the steel frame.

- Secured to steel with Tek screws
- Compatible with the DS aluminium Joist
- Easily installed at customisable intervals
- Allows for height adjustment of joists

## Details

<b>Material</b>	Stainless Steel A2
<b>Dimensions</b>	See “Part information” below
