Fixed Head Adjustable Joist Support Pedestal

Overview

The RDF Fixed Head Adjustable Joist Support Pedestal is a plastic support pedestal for decking and railing applications. The adjustable thread provides millimetre-perfect adjustability across a large height range, making installation straightforward and rapid.

- Accommodates joist width of up to 80mm
- Millimetre-perfect height adjustment
- Large height range available
- Cut-off base allows for placement against the wall abutment
- Height extension collar raises the total height in 100mm increments
- Holes in base allow drainage and fixing to substrates
